

# BY THE NUMBERS

# TOWER COMPANIES

Editor's Note: The companies listed below represent the top wireless communications tower owners in the United States and are ranked based on the number of towers they own, not the number of sites they manage. RCR Wireless News contacted each company directly to obtain accurate information regarding numbers of sites owned.

Current market cap given for the publicly held companies is based on the RCR Wireless News Stock Watch. All the other companies are either part of larger publicly-held holding companies or are privately-held and consequently do not reveal financial results.

No. 2 on the list Crown Castle International Corp. is in the process of acquiring No. 3 tower

company Global Signal Inc. When completed, Crown Castle will control 23,910 towers and surpass current No. 1 American Tower Corp. at the top of the rankings.

It is the intent of RCR Wireless News to include all tower companies that operate in the wireless arena. To inquire about the 2007 list, send an e-mail to Joni Morse at [jmorse@rcrain.com](mailto:jmorse@rcrain.com).
